

**Form 1: Prior to absence from training – supplementary clinical oncology-specific evidence**

During the meeting with the ES or TPD prior to an extended period of absence, trainees are advised to discuss and document the current level of supervision they require in the areas of practice detailed below. This will provide a useful point of reference upon the trainee’s return to training.

	Current level of supervision required			
	Requires full supervision	Requires minimal supervision	Fully independent	Comments
<b>Metastatic spinal cord compression radiotherapy</b>				
<b>Palliative planning</b>				
<b>Radical planning</b>				
<b>Systemic treatment prescribing</b>				
<b>On-call</b>	Summary of discussion:			
<b>Any further details or comments</b>
