

# Radiotherapy consent form for prostate cancer

This form should only be used if the patient is over 16 years old and has capacity to give consent. If the patient does not legally have capacity please use an appropriate alternative consent form from your hospital.

Clinical  
Oncology

The Royal College of Radiologists

## Patient details

Patient name:

Date of birth:

Patient unique identifier:

Name of hospital:

Responsible consultant oncologist or consultant radiographer:

Special requirements: eg, transport, interpreter, assistance

## Details of radiotherapy treatment

Radiotherapy type:

External beam radiotherapy

Site:

(Tick as appropriate)

- Prostate/seminal vesicles
- Prostate bed
- Pelvic lymph nodes
- Other (please specify) \_\_\_\_\_

Aim of treatment:

(Tick as appropriate)

- Curative** – to give you the best chance of being cured
- Adjuvant** – treatment given after surgery to reduce the risk of cancer coming back
- Disease control/palliative** – to improve your symptoms and/or help you live longer but not to cure your cancer

**You may have questions before starting, during or after your radiotherapy.**

Contact details are provided here for any further queries, concerns or if you would like to discuss your treatment further.

## Possible early/short-term side-effects

Start during radiotherapy or shortly after completing radiotherapy and usually resolve within two to six months of finishing radiotherapy. Frequencies are approximate.

<b>Expected</b> 50%–100% 	<input type="checkbox"/> <b>Tiredness</b> <input type="checkbox"/> <b>Urinary frequency</b> (passing urine more often than normal), <b>urgency</b> (sudden urge to pass urine) and <b>slower flow</b> compared to normal
<b>Common</b> 10%–50% 	<input type="checkbox"/> <b>Hair loss in the treatment area</b> <input type="checkbox"/> <b>Bowel frequency</b> (opening your bowels more often than normal) and <b>urgency</b> (sudden urge to open your bowels) <input type="checkbox"/> <b>Looser stools</b> with more mucous or wind compared to normal
<b>Less common</b> Less than 10% 	<input type="checkbox"/> <b>Skin redness/irritation in the treatment area</b> <input type="checkbox"/> <b>Cystitis/pain when you urinate</b> – due to bladder inflammation <input type="checkbox"/> <b>Rectal pain/discomfort</b> – due to rectal inflammation <input type="checkbox"/> <b>A feeling of not completely emptying your bowels</b> <input type="checkbox"/> <b>Bleeding from your bladder or bowel</b> – usually mild
<b>Rare</b> Less than 1% 	<input type="checkbox"/> <b>Urinary retention</b> – not being able to pass urine which may result in needing a urinary catheter <input type="checkbox"/> <b>Urinary incontinence including urine leaking</b>
<b>Specific risks to you from your treatment</b>	

I confirm that I have had the above side-effects explained.

## Statement of health professional

(to be filled in by health professional with appropriate knowledge of proposed procedure)

- I have discussed what the treatment is likely to involve, the intended aims and side-effects of this treatment.
- I have also discussed the benefits and risks of any available alternative treatments including no treatment.
- I have discussed any particular concerns of this patient.

Patient information leaflet provided:  Yes /  No – Details: \_\_\_\_\_

Copy of consent form accepted by patient:  Yes /  No

Signature:

Date:

Name:

Job title:

## Statement of patient

- I have had the aims and possible side effects of treatment explained to me and the opportunity to discuss alternative treatment and I agree to the course of treatment described on this form.
  - I understand that a guarantee cannot be given that a particular person will perform the radiotherapy. The person will, however, have appropriate expertise.
  - I have been told about additional procedures which are necessary prior to treatment or may become necessary during my treatment. This may include permanent skin marks and photographs to help with treatment planning and identification.
- I agree that information collected during my treatment, including images and my health records may be used for education, audit and research. All information will be anonymised. I am aware I can withdraw consent at anytime.

Tick if relevant

I understand that I should not father a child or donate sperm during the course of my treatment and I will discuss with my oncologist when it will be safe for me to father a child after radiotherapy.

I understand that if I were to continue to smoke it could have a significant impact on the side-effects I experience and the efficacy of my treatment.

I do not have a pacemaker and/or implantable cardioverter defibrillator (ICD).

or

I have a pacemaker and/or implantable cardioverter defibrillator (ICD) and I have had the risks associated with this explained to me.
