

The Quality Standard for Imaging (QSI)

STAGE 0

Start the conversation

You want to find out more about the QSI process. Services can informally start working on the QSI.

STAGE 2

Gap analysis and dedicated staff

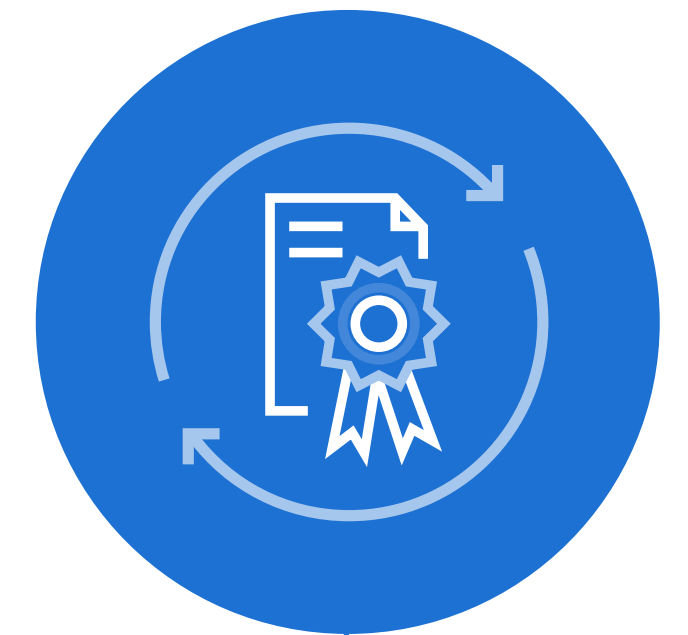

You are working through the initial stages of a gap analysis.

STAGE 4

Apply for accreditation

You apply for accreditation with UKAS or have a rolling QSI quality programme.

STAGE 1

Start the process

You apply for a business case for QSI staff and, if possible, accreditation costs.

STAGE 3

Service development

In the service development phase, you will create action plans, policies and procedures to meet the standard.

STAGE 5

Accreditation and continuous quality improvement

You have been successfully accredited and have adopted a continuous cycle of quality improvement.
