

Curriculum Champions

The curriculum champions are your local point of contact for information and queries about the 2021 clinical radiology and interventional radiology curricula. Each region has a trainer curriculum champion, with a trainee curriculum champion in each training programme.

If you have any questions, feedback, or suggestions for implementation tools that you would find helpful, please get in touch with one of your curriculum champions in the first instance. Where necessary, they will pass your feedback to the RCR curriculum team.

If you are unable to contact your curriculum champion, please email curriculum@rcr.ac.uk and we will forward your message to them.

Please see a full list of the curriculum champions below.

LETB	Training Programme	Trainee Curriculum Champions	Trainer Curriculum Champion
