

Professional learning and development programme

Our programme of activities, which include face-to-face events, webinars and the RCR eLearning hub, is designed to help train and equip clinical oncologists and clinical radiologists throughout their medical career; from welcome days and refresher courses to management courses and annual professional updates.

Designed and delivered by experienced and world renowned experts, our courses and online resources offer unique access to our faculty of top-class speakers and facilitators.

Our face-to-face events take place across the country and provide high-quality, professionally delivered lectures and workshops along with the opportunity to network with colleagues and peers.

The eLearning hub can be accessed from any iOS or Android phone or tablet, mac or PC at a time and place to suit you. **Visit www.rcrlearning.org.**

All College activities offer CPD credits and certificates of attendance are provided for appraisal and revalidation.
