

Time	Radiology stream 1	Radiology stream 2	Radiology stream 3	Oncology stream 4	Workshop stream 5 (lecture-based workshops)	Workshop stream 6 (Osirix-based workshops)	Oncology trainee workshop
08:00–08:20	Registration						
08:30–10:30	<p>Pitfalls in acute imaging: brain, neck and chest Chair: Dr John Curtis</p> <p>Pitfalls in acute imaging: brain Dr Mark Radon, The Walton Centre NHS Foundation Trust, Liverpool</p> <p>Pitfalls in acute imaging: chest Dr John Curtis, Aintree University Hospital NHS Foundation Trust, Liverpool and Dr Radhika Prasad, Leeds Teaching Hospitals NHS Trust</p>	<p>Bowel imaging Chair: Dr Raneem Albazaz</p> <p>Bowel cancer screening – what are the current recommendations? Dr Hannah Lambie, Leeds Teaching Hospitals NHS Trust</p> <p>Colorectal cancer – when to suspect it on imaging? Dr Rachel Hyland, Leeds Teaching Hospitals NHS Trust</p> <p>Inflammatory bowel disease – which imaging modality and when? Associate Professor Andrew Plumb, Associate Professor of Medical Imaging, University College London Hospitals NHS Foundation Trust</p> <p>Abnormal small bowel – what else beyond inflammatory bowel disease? Dr Christopher Clarke, Nottingham University Hospitals NHS Trust</p>	<p>Fetal imaging Chair: Dr Elspeth Whitby</p> <p>What the fetal medicine need to know from fetal magnetic resonance imaging (MRI) Dr Therese Hannon, Consultant in Fetal Medicine and Obstetrics, The Newcastle upon Tyne Hospitals NHS Foundation Trust</p> <p>What the surgeons need to know from fetal MRI Mr Sean Marven, Consultant Paediatric Surgeon, Sheffield Children’s NHS Foundation Trust</p> <p>What information fetal MRI can provide for this pregnancy and future pregnancies Dr Elspeth Whitby, Senior Lecturer/ Honorary Consultant, University of Sheffield and Sheffield Teaching Hospitals NHS Foundation Trust</p> <p>What the pathologist needs to know from fetal MRI Professor Marta Cohen, Consultant Paediatric and Perinatal Pathologists, Sheffield Children’s NHS Foundation Trust</p>	<p>Advances in management of oligometastatic and primary liver cancer Chair: Professor Maria Hawkins</p> <p>Imaging of liver tumours for the oncologist Dr J Ashley Guthrie, Leeds Teaching Hospitals NHS Trust</p> <p>Radiation therapy for liver tumours – summary of evidence and over view of UK practice Dr James Good, University Hospitals Birmingham NHS Foundation Trust and Dr Rebecca Goody, Leeds Teaching Hospitals NHS Trust</p> <p>Interventional radiology options for liver tumours Dr Homoyon Mehrzad, University Hospitals Birmingham NHS Foundation Trust</p>	<p>British Society of Breast Radiology: What is the purpose of the breast multidisciplinary meeting (MDM)? Chair: Dr Nisha Sharma</p> <p>Role of the radiologist at MDM Dr Eleanor Cornford, Gloucestershire Hospitals NHS Foundation Trust</p> <p>Role of the pathologist at MDM Dr Rahul Deb, Consultant Histopathologist, University Hospitals of Derby and Burton NHS Foundation Trust</p> <p>Role of the surgeon at MDM Mr Mark Sibbering, Consultant Surgeon, University Hospitals of Derby and Burton NHS Foundation Trust</p> <p>Role of the oncologist at MDM Professor David Dodwell, Oxford University</p> <p>Innovations around reforming MDM Mr Mark Sibbering, Consultant Surgeon, University Hospitals of Derby and Burton NHS Foundation Trust</p> <p>Interactive MDM discussion and cases Dr Jonathan James, Nottingham University Hospitals NHS Trust and all faculty</p>	<p>Trainee stream: Cardiothoracic Chair: Dr Stephen Harden</p> <p>An interactive case-based workshop focussing on the basic principles of cross sectional imaging analysis in cardiac and thoracic disease.</p> <p>Faculty include: Dr Stephen Harden, Southampton NHS Foundation Trust Dr Sumit Karia, Cambridge University Hospitals NHS Foundation Trust Lena Dendl, Cambridge University Hospitals NHS Foundation Trust Dr Michelle Williams, University of Edinburgh</p>	<p>Imaging for radiotherapy planning Chairs: Dr Sarah Swift and Dr Finbar Slevin</p> <p>Radiology for pelvic radiotherapy planning</p> <p>Anus/rectum Dr Rachel Cooper, Consultant Clinical Oncologist, and Dr Damian Tolan, Consultant Clinical Radiologist, Leeds Teaching Hospitals NHS Trust</p> <p>Gynae Dr Rachel Cooper, Consultant Clinical Oncologist, and Dr Sarah Swift, Consultant Clinical Radiologist, Leeds Teaching Hospitals NHS Trust</p> <p>Urology Dr Ann Henry, Consultant Clinical Oncologist, and Dr Oliver Hulson, Consultant Clinical Radiologist, Leeds Teaching Hospitals NHS Trust</p>
10:30–11:00	Coffee						

Time	Radiology stream 1	Radiology stream 2	Radiology stream 3	Oncology stream 4	Workshop stream 5 (lecture-based workshops)	Workshop stream 6 (Osirix-based workshops)	Oncology trainee workshop
11:00–11:55	<p>Pitfalls in acute imaging: brain, neck and chest (continued)</p> <p>Pitfalls in acute imaging: neck Dr Mark Radon, The Walton Centre NHS Foundation Trust, Liverpool</p>	<p>Bowel imaging (continued)</p> <p>The postoperative bowel – leak, ileus or obstruction? Dr James Stephenson, University Hospitals of Leicester NHS Foundation Trust</p> <p>Unexpected focal liver lesions on computed tomography (CT) – the definitely benign, the definitely aggressive, the ‘don’t know’ Dr Anthony Blakeborough, Sheffield Teaching Hospitals NHS Foundation Trust</p>	<p>Fetal imaging (continued)</p> <p>The impact on the parents for both fetal and post-mortem MRI Professor Kate Reed, Professor of Medical Sociology, University of Sheffield</p>	<p>Advances in management of oligometastatic and primary liver cancer (continued)</p> <p>Surgery for liver metastases and primary liver cancers – current practice and potential for integrating radiotherapy in the patient pathway? Professor Giles Toogood, Consultant Hepatobiliary and Liver Transplant Surgeon, Leeds Teaching Hospitals NHS Trust</p>	<p>British Society of Breast Radiology: What is the purpose of the breast MDM meeting? (continues)</p> <p>Interactive MDM : discussion and cases All faculty</p>	<p>Trainee stream: British Society of Head and Neck Imaging: Sinonasal anatomy and pathology Led by: Dr Gitta Madani</p> <p>The session will cover basic and surgically important variant anatomy, patterns of inflammatory disease, sinonasal infections, benign and malignant tumours.</p> <p>Faculty include:</p> <p>Dr Gitta Madani, Imperial College Healthcare NHS Trust, London</p> <p>Dr David Summers, NHS Lothian, Edinburgh</p> <p>Dr Ata Siddiqui, King’s College Hospital NHS Foundation Trust, London</p> <p>Dr Philip Touska, Guy’s and St Thomas’ NHS Foundation Trust, London</p> <p>Dr Ravi Lingam, London North West University Healthcare NHS Trust</p>	<p>Imaging for radiotherapy planning (continues)</p> <p>Radiology for head and neck radiotherapy planning Dr Gill Barnett, Consultant Clinical Oncologist, and Dr Tilak Das, Consultant Clinical Radiologist, Cambridge University Hospitals NHS Foundation Trust</p>
12:05–13:00	RCR Annual General Meeting and College update						
13:00–14:00	Lunch						
14:00–14:45	<p>President’s Lecture: Ancestors: a history of Britain through bones and burials Professor Alice Roberts, Anatomist and Biological Anthropologist, University of Birmingham</p>						

The quality of most of the talks was superb and therefore I have obtained several good learning points

Time	Radiology stream 1	Radiology stream 2	Radiology stream 3	Oncology stream	Workshop stream 5 (lecture-based workshops)	Workshop stream 6 (Osirix-based workshops)	Oncology trainee workshop
15:00–16:10	<p>Pitfalls in acute imaging: abdomen, pelvis and bones Chair: Dr Elizabeth Dick</p> <p>Acute abdomen: the common, the rare, the easy-to-miss Dr Beth Hankinson, Royal Liverpool and Broadgreen University Hospitals NHS Trust</p> <p>Postoperative acute abdomen: lose the fear Dr Vikas Shah, University Hospitals of Leicester NHS Trust</p>	<p>Emergency paediatrics for the general radiologist Chair: Dr Rob Hawkes</p> <p>Paediatric surgical emergencies for the general radiologist Dr John Apsey, Royal Devon and Exeter NHS Foundation Trust</p> <p>Paediatric neuroradiology on-call for the generalist Dr Fionn Williams, University Hospitals Bristol NHS Foundation Trust</p>	<p>Multicentre radiology research trials: 'how to get involved?' Chair: Dr Owen Arthurs</p> <p>Imaging-based clinical trials – what are the benefits? Professor Gina Brown, The Royal Marsden NHS Foundation Trust, Sutton</p> <p>How I managed to get trials going in my busy clinical trust and why would you want to be a principal investigator (PI)? Dr Ingrid Britton, University Hospitals of North Midlands NHS Trust</p> <p>Developing clinical research infrastructure in a teaching hospital setting and why? Dr Tony Higginson, Portsmouth Hospitals NHS Trust</p> <p>The trainees perspective: from academic clinical fellowship (ACF) to PhD Dr Uday Patel, London North West University Healthcare NHS Trust</p>	<p>Advances in management of oligometastatic and primary liver cancer (continued)</p> <p>Liver radiotherapy workshop – difficult cases for the expert panel Chair: Dr Parag Parikh</p> <p>All faculty</p>	<p>Trainee stream: Vascular and intervention Chair: Dr Timothy Bryant</p>	<p>British Thoracic Imaging Society: Diagnosing usual interstitial pneumonia (UIP) in 2019 and why it is important: what the general radiologist needs to know Led by: Dr Jonathan Rodrigues</p> <p>Hands-on case review aiming to up-skill general radiologists at diagnosing usual interstitial pneumonia, which has potentially important anti-fibrotic treatment implications.</p> <p>Faculty include:</p> <p>Dr Jonathan Rodrigues, Royal United Hospitals Bath NHS Foundation Trust</p> <p>Dr Anthony Edey, North Bristol NHS Trust</p> <p>Dr Graham Robinson, Royal United Hospitals Bath NHS Foundation Trust</p>	<p>Imaging for radiotherapy planning (<i>continues</i>)</p> <p>Radiology for thorax radiotherapy planning</p> <p>Lung Dr John Conibear, Consultant Clinical Oncologist, Barts Health NHS Trust, London and Dr Stephen Ellis, Consultant Clinical Radiologist, Barts Health NHS Trust, London</p> <p>Breast Dr John Conibear, Consultant Clinical Oncologist, Barts Health NHS Trust, London and Dr Stephen Ellis, Consultant Clinical Radiologist, Barts Health NHS Trust, London</p>
16:10–16:40	Coffee						
16:40–18:00	<p>Pitfalls in acute imaging: abdomen, pelvis and bones (continued)</p> <p>Great pick ups and near misses in trauma: abdomen and pelvis Dr Elizabeth Dick, Imperial College Healthcare NHS Trust, London</p> <p>Great pick ups and near misses: upper limb Dr Dimitri Amiras Imperial College Healthcare NHS Trust, London</p> <p>Great pick ups and near misses: lower limb Dr Lisa Meacock, King's College Hospital NHS Foundation Trust, London</p>	<p>Emergency paediatrics for the general radiologist (continued)</p> <p>An update of non-accidental injury (NAI) and trauma protocols for the generalist Dr Rob Hawkes, Manchester University NHS Foundation Trust</p> <p>On-call cases: unexpected results Dr Amit Maniyar, Manchester University NHS Foundation Trust</p>	<p>RCR Meets Ireland Chairs: Dr Stephen Harden and Dr Niall Sheehy</p>	<p>Advances in management of oligometastatic and primary liver cancer (continued)</p> <p>An overview of United States practice Dr Parag Parikh, Director of GI Radiation Oncology and MR Guided Radiation Therapy, Henry Ford Cancer Institute, Detroit</p> <p>Integrating liver radiotherapy into practice – forum discussion Facilitators: Professor Maria Hawkins and Dr James Good</p>	<p>Trainee stream: The consultant interview: the preparation, the common questions and the do's and don'ts Chair: Dr Gareth Davies</p> <p>This session will give an insight for the trainee in how to prepare for the consultant interview and common questions that are asked.</p>	<p>British Society of Cardiovascular Imaging / British Society of Cardiovascular Computed Tomography: ECG gated CT for the interested but under exposed Led by: Dr James Shambrook</p> <p>Practically understanding how ECG gating works, its application in common clinical scenarios and the interpretation of these investigations.</p> <p>Faculty include:</p> <p>Dr James Shambrook, University Hospital Southampton NHS Foundation Trust Dr Giles Roditi, NHS Greater Glasgow and Clyde Dr Bobby Agrawal, Royal Papworth Hospital NHS Foundation Trust Dr Michelle Williams, NHS Lothian, Edinburgh</p>	<p>Imaging for radiotherapy planning (<i>continues</i>)</p> <p>Radiology for neuro radiotherapy planning</p> <p>Brain and Spinal/ malignant spinal cord compression (MSCC) Dr Sarah Jefferies, Consultant Clinical Oncologist, Cambridge University Hospitals and Dr Tilak Das, Consultant Clinical Radiologist, Cambridge University Hospitals NHS Foundation Trust</p>
19:00	<p>Conference dinner (<i>please note that the conference dinner is not included in your event fee. To purchase tickets please visit www.rcr.ac.uk/college/rcr19/conference-dinner</i>)</p>
